Certificate for Project

I certify that Akshat Suwalka, a 3rd year student of BTech manufacturing science and engineering had worked on a project on **Emotion Recognition** under me in the Spring semester, 2019. He has been remarkably sincere and successfully completed the tasks that were assigned to him.

He is also currently working on Cocoon Gender Identification from Image data.

I wish him the very best in his future endeavor.

Sincerely,

Jiaul H. Paik
